

No. 10

Good morning.

Thank you Mr. Commissioner for inviting me here.

I am welcome the BC Public Inquiry conducted under your supervision.

Especially I am looking forward to the second part of this Inquiry, which will focus on facts related to the death of my son, Robert Dziekanski.

Mr. Commissioner, my confidence and faith in RCMP and Canadian authorities are shattered. *scattered*

I was shock and distressed to learn how my son died after the tape hold by the police was release to public *LPHSA* and the story was very different then I was told by the authorities.

I want *justice* ~~the~~ justices, *accountability* truth, and accountability. I know that my son would not die if he would not be tasered, and I know that he did not deserved the treatment he *encounter* encounter at the Vancouver Airport.

I hope and I put all my trust in you Mr. Commissioner, that in your final report you will come *up* up with proper recommendations so no other mother would have to experience so much pain and suffering like I *did* did. Thank you.
